

BOR **PAK**

WHAT IS BORPAK®?

BorPak® is a 7.5% boron with technology that increases nutrient uptake and utilization.

HOW DOES BORPAK® WORK?

- Boron, an essential nutrient, regulates sugar movement within plants
- NTake™ Technology maximizes nutrient mobility to critical plant systems

WHY USE BORPAK®?

- Provides a highly active source of boron
- Enhances mobilization of nutrients inside plants
- Beneficial to a wide variety of crops during reproduction

APPLICATION RATE

FOLIAR

16-32 oz or 236 mL to 1 L per acre
or 584 mL to 2.4 L per hectare
