

NUTRAK

WHAT IS NUTRAK®?

NUTRAK® is a liquid potassium acetate with nCeption technology designed for maximum uptake and utilization by plants.

HOW DOES NUTRAK® WORK?

nCeption™ Technology provides carbon sources that increase nutrient absorption.

WHY USE NUTRAK®?

- Potassium acetate is over 4x more efficient in uptake and utilization compared to other foliar potassium sources
- Superior foliar crop safety

APPLICATION RATE

FOLIAR
2-6 qt (2-6 L) per acre or 4.9 to 14.8 L per hectare
