

Premiere **PAK**

ADVANCED

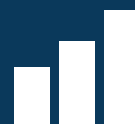

WHAT IS PREMIEREPAK ADVANCED?

PremierePak Advanced is a proprietary blend of 6 essential nutrients blended with AgXplore technologies, designed to optimize nutrient availability.

WHY USE PREMIEREPAK ADVANCED?

- NET™ Technology increases nutrient availability
- nCeption™ Technology promotes nutrient absorption
- NTake™ Technology maximizes nutrient mobility to critical plant systems
- Better distribution of micronutrients
- Provides essential nutrients needed for chlorophyll production and photosynthesis

APPLICATION RATES

DRY FERTILIZER: 2 qts (2 L) per ton/tonne

FOLIAR: 0.5-1 qt (16 - 32 oz or 0.5 - 1 L) per acre with 10 gal of water, or 1.2 to 2.4 L per Hectare with 37.8 gal of water

IN-FURROW OR LIQUID PHOSPHORUS: (10-34-0, 6-24-6, Alpine G22, etc.) 4.5-7.5 oz (135-225 mL) per acre with 3-5 gal phosphorus, or 334 mL to 555 mL per hectare
