GROPAK CT PART 2

GENERAL INFORMATION

GROPAK CT Part 2 is a bacterial inoculant for use in agriculture for corn during critical stages of development. When applied, **GROPAK CT Part 2** provides seed lubricant and seed flow aid during planting or seeding and allows plants to more effectively utilize nutrients. This product is sold as part of the **GROPAK CT COPAK SYSTEM** and is not intended to be used separately.

INSTRUCTIONS FOR MIXING

Follow these directions for mixing the **GROPAK CT COPAK SYSTEM** components.

The **GroPak CT CoPak System** consists of three co-packaged components:

- **GroPak CT Part 1** (already in the container)
- **GroPak CT Part 2** (in a marked, gusseted bag inside the container)
- **GroPak CTX** (in a separate, marked, gusseted bag inside the container)

Open the bucket and remove the **GroPak CT Part 2** and **GroPak CTX** bags. Open each bag and carefully pour the contents over the material in the bottom of the container. Avoid creating dust. Reseal the container, then shake vigorously to thoroughly and uniformly blend the contents. Allow contents to settle before reopening container for application to seed.

RATES

When mixed, the **GroPak CT CoPak System** provides the correct ratio of the components for seed treatment.

COMPONENT	LOCATION	AMOUNT IN MIXED PRODUCT
GroPak CT Part 1	already in container	2-3/8 oz/unit (80,000 seeds)
GroPak CT Part 2	in a marked, gusseted bag inside the container	1/2 oz/unit (80,000 seeds)
GroPak CT-X	in a separate, marked, gusseted bag inside the container	1/8 oz/unit (80,000 seeds)

Use the mixed product to treat corn seeds at the rate of 3 oz/unit of seed. (Scoop provided.)
One mixed **GroPak CT CoPak System** bucket treats 50 units of seed.

INSTRUCTIONS FOR APPLICATION

Apply by dispersing the mixed product powder evenly onto seeds using appropriate equipment. The **GroPak CT CoPak System** can be applied in all planter types.

FIRST AID

If in eyes: Hold eye open and rinse gently with water for 15-20 minutes. Remove contact lenses, if present, after 5 minutes and continue rinsing. If on skin: Take off contaminated clothing immediately. Rinse skin with water for 15-20 minutes. If symptoms persist, contact a poison control center or doctor for treatment advice.

CONDITIONS OF SALE/LIMITATION OF WARRANTY & LIABILITY

Manufacturer warrants that this product conforms to its chemical description and will perform as stated on the label when used according to directions and under normal conditions. Neither this warranty nor any other warranty of merchantability, expressed or implied, extends to the use of this product contrary to label directions. No employee or agent of AgXplore International, LLC, the manufacturer of this product, nor the seller, is authorized to vary the Conditions of Sale and Limitation of Warranty and Liability. Buyer assumes all risk if this product is used in any manner or under any condition other than those specifically set forth on the label. To the extent permitted by law, the Buyer's or User's exclusive remedy for any injury, loss, or damage resulting from handling or use of this product shall be limited to one of the following, at the discretion of AgXplore International, LLC: Direct damages not exceeding the purchase price of the product or replacement of the product. AgXplore International, LLC and the seller of this product shall not be liable for consequential, special, or incidental damages or losses, nor damages in the nature of a penalty.

NOTICE TO PENNSYLVANIA USERS

1. This product may not be applied within 15 feet of water (i.e. lakes, ponds, wetlands, or flowing bodies of water), storm drains, drainage ditches, or to any impervious surface.
2. The product may not be applied if heavy rain that could reasonably cause significant runoff is expected in the next 48 hours.
3. The product may only be applied to the intended application site. Avoid overspray onto adjacent lands, roads, and other non-target areas.

EXPIRATION DATE

Sticker is affixed to the GroPak CT CoPak System container.
